

PODP Toxicology Sub Team 24 June 2008 Telecom Minutes -Approved Redacted

On June 24, 2008 a face-to-face meeting of the PQRI PODP L&E toxicology sub team was held in Bethesda, MD. The focus of the meeting was to review the current work plan and determine how the sub team will complete deliverables in the intended time frame. Sub team members were assigned tasks to review existing documents on safety thresholds and determine how these thresholds will be applied to L&E in PODP. The sub team will reconvene in August, 2008 to review the data collected by sub team members and how we will use these data to develop a threshold rationale for L&E in PODP.
