

## Improving Global Health Through Advances in Pharmaceutical Sciences

When cultures cross and minds meet exciting things happen that can have a positive impact on human health. That's why in 2010 the International Pharmaceutical Federation's PSWC and the AAPS Annual Meeting will be combined—for the first time ever—to create a truly global event. Thousands of scientists will converge in the thriving and exciting U.S. city of New Orleans to share various perspectives, ideas and cultural learnings in order to improve health through advances in pharmaceutical sciences.
