

2007 PQRI West Coast Training Course Leachables and Extractables Best Practices

Thursday - Friday, 15-16 November, 2007

**Pfizer La Jolla Campus
10770 Science Center Drive
San Diego, CA 92121**

The Product Quality Research Institute (PQRI) is sponsoring a training course addressing best practices for orally inhaled and nasal drug products (OINDP) leachables and extractables (L&E) pharmaceutical development programs. The content of the course will focus on best practices for L&E, and will be based on the PQRI Recommendations “Safety Thresholds and Best Practices for Extractables and Leachables in Orally Inhaled and Nasal Drug Products” (posted on the web at http://www.pqri.org/pdfs/LE_Recommendations_to_FDA_09-20-06.pdf.) Open discussion will be encouraged. Topics will include:

- Selection of Container/Closure System Components
- Safety Evaluation of Extractables and Leachables
- Analysis of Extractables and Leachables
- Characterization of Extractables and Leachables
- Evaluation of Special Case Compounds
- Control Strategies for Quality

Registration will open soon.
